

Illegal images

If you have any reason to believe that a particular image you have received might be illegal, such as child pornography, you should report it immediately to the Gardai.

The Child Trafficking and Pornography Act 1998 makes it illegal for anyone to produce, forward, publish, send, show or possess any child pornography in Ireland. Illegal images of this nature should be reported to www.hotline.ie

This service is provided by the Internet Service Providers Association of Ireland (ISPAI) for reporting any instances of child pornography on the Internet in a secure and confidential environment.
