Notes:

1. Where a customer avails of this facility there will be no discount available on the recurring charges for the full eir broadband service.
2. The customer can opt for either self-install or full install services.
3. The discount is applied on a sliding scale, and only for those connections within the specified band will receive the specified discount payment. i.e. the first 10 connections will be charged at the base price, the next 15 connections at the first discounted level, the next 25 connections at the second discounted level and so on.
4. The customer requires the specific number of connections detailed in the table in order to qualify for the discount payment at a particular tier.
5. The discounted prices will only apply to those connections included in a single order.
6. Modems under this discount scheme will be delivered in one batch to a single customer site, for self install orders only.
